

## Company Profile

Safe & Secure Services

شركة أحمد علي التجارية ذ.م.م  
**AHMED ALI TRADING CO. W.L.L**

# COMPANY OVERVIEW

Ahmed Ali Trading Establishment has emerged as one of the renowned companies in Bahrain and our main activities includes general trading, contracting and maintenance of Fire alarm, Firefighting, Smoke extract fan, Pressurization system, Fire suppression, Gas detection, Safety & security system, Central battery system, Structured network cabling, Power protection system etc.

We have proven our ability in taking large and complex commercial and industrial projects and complete them on time.

We are having approval from the Ministry of Civil Defense & Fire Service Directorate and Ministry of Works for the fire alarm system supply and installation.

Ahmed Ali Trading Establishment (AATE) is lead by group of qualified and professional staff with long time vision and commitment towards the customer satisfaction.

We are committed to total customer satisfaction, providing latest technologies with world class standards.

We have a separate department totally dedicated for maintenance of fire alarm systems and equipment, offer all the services of our engineers and technicians within 24 hours for emergency requirements.

Further, we also undertake annual & quarterly inspection and testing contracts on each fire protection system, to ensure the smooth functions of the various fire alarm & fighting systems equipment's throughout the year.

Most of the business comes as repeat orders from our esteemed clients and consultants, which is a proof of our reliability and commitment.

The enclosed details will provide more information about our activities.

# FIRE ALARM SYSTEM

Zeta Alarm Systems Ltd is a UK manufacturer of early warning fire detection systems. To meet the requirements of our ever-changing market, we pride ourselves on being a complete system provider. This means our customers can rely on us for their entire fire system requirements. Our services include the supply, installation and maintenance of complete range systems as follows.

- ✚ Addressable Fire Alarm System
- ✚ Conventional Fire Alarm System
- ✚ Wireless Fire Alarm System
- ✚ Stand Alone Fire Alarm System
- ✚ Alarm Graphic System
- ✚ Smart Connect Systems

# EMERGENCY SYSTEM

The complete range of Zeta Emergency Systems consists of,

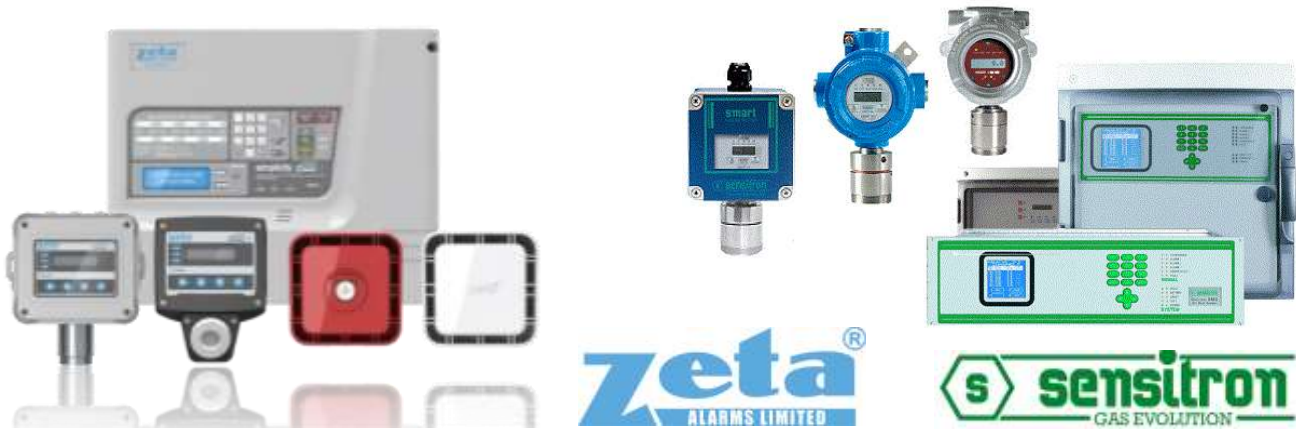

- ✚ Command Center
- ✚ Disabled Refuge System
- ✚ Voice Evacuation System
- ✚ Fire Telephone System
- ✚ Disabled Toilet Alarm System

The Zeta Command Centres have combined Fire Detection, Voice Evacuation and Fire Telephone systems into one purpose designed enclosure. This quite simply means that in the event of an emergency, all the required systems are together in one place, making communication and control of the situation easier and safer.

The disabled refugee system will enable the emergency services to maintain a constant contact with people in the refuge area who may seek assistance. It also allows fire fighters and others to communicate during an emergency situation.

# GAS DETECTION SYSTEM

Our specialty comprises a wide range of Toxic and Combustible Gas detection systems from the manufacturers Zeta UK and Sensitron Italy.

- ✚ Toxic & Flammable Gas Detection System
- ✚ CO Monitoring & Ventilation System
- ✚ Stand Alone Gas Detectors

This innovative detector can run as a self-contained standalone detector, or it can be linked to a central monitoring panel where up to 48 detectors can be connected. The detectors can be for the same gas, or for mixed gasses.

The CO monitoring and ventilation system, capable of detecting low concentrations of CO, and automatically starting the building's ventilation fans.

# FIRE SUPPRESSION SYSTEM

Our area of expertise covers the supply, installation and maintenance of Fire Suppression Systems for IT room, Projector room, kitchen hood and electrical distribution board from the manufacturers Fike USA, Zeta UK and Firex UAE. Different kinds of clean agents are being used by us as follows.

- ✚ FM200 HFC – 227ea
- ✚ CO<sub>2</sub>
- ✚ 3M Novec
- ✚ Argonite System TG55
- ✚ Wet Chemical

# CENTRAL BATTERY SYSTEM

We are the authorized distributor of RP Technik Germany for the Central Battery System and our service consists of total supply, installation and maintenance. We own the complete range of safety and emergency lighting solutions for use in emergency systems with 230V/216V AC/DC with single lamp monitoring without additional cables, free-programmable circuits and integrated Web-Server.

- ✚ AC to DC Addressable System
- ✚ AC to AC Non-Addressable System
- ✚ Wireless Radio-Controlled Emergency Lighting System
- ✚ Self-Contained Luminaire and Exit Light

# FIRE FIGHTING SYSTEM

With our sustained efforts, we provide a reliable, efficient, intelligent and superior service to our firefighting division for design, supply and installation of all kinds of passive and active fire protection systems. We also offer after sale service and maintenance with our highly qualified engineers and technicians. Our product and service ranges vary from: -

- ✚ Sprinkler and Hose Reel System
- ✚ Dry Riser and Wet Riser
- ✚ Fire Extinguisher

**Consultancy & Research Section**

**Material Compliance Report (MCR) 2409/2016**  
(for Ministry of Works projects)

Material Detail:	Fire Alarm System
Manufacturer:	GLT Exports, Zeta (UNITED KINGDOM)
Applicant:	Ahmed Ali Trading Est P.O. Box 76038, Bldg 170, Road 1111, Block 311, Al Salmaniya, Manama, Kingdom of Bahrain

Following MED standard procedures for assessment and technical evaluations of the above Material, as to compliance with the Ministry of Works' specifications and requirements, we advise as per the following details:

**I. Compliance with Relevant Standards & Specifications**

☒ Acceptable

**II. Adequacy for use in Ministry of Works projects**

☒ Adequate

The Material is suitable for use in Ministry of Works' projects

**III. Comments**

- For Zeta Fire Alarm System with model(s)/type(s) Components as listed in the Attachment.
- The Product when tested should adhere to BS EN 54 and shall always conform to the Standard Specifications for Construction Works - 2009 of the MoW projects.
- This compliance report does in no way relieve the supplier or contractor of their obligation with respect to obtaining the necessary approval of the concerned Project Engineer for a specific project.
- The material will be subject to factory inspection and periodic quality control assessment by the Materials Engineering Directorate personnel.

Note:

This Report is valid for maximum of 1 (one) year from the date of this Report unless otherwise stated or there is a change / revision in the material technical specifications, manufacturing process or relevant regulatory & Specification requirements.
